SOUTHERN SINKIANG HIGHWAY MEARS COMPLETION

When the Erh-ch'iang--K'u-erh-lo highway is constructed, it will complete the Southern Sinkiang road network of which Erh-ch'iang Heien is the central point. The Erh-ch'iang--K'u-erh-lo highway should be completed toward the end of 1948, culminating government plans launched in 1946 which included sections from Erh-ch'iang to Ch'ieh-mo and from Min-feng to Tu-t'ien. This highway recircles the desert region and eliminates the need of crossing the desert on camels or on homestack. hormaback.
